Please find below links to the following helpful documents:

- [ACARA NAPLAN 2025](#) – Information for parents/guardians
- [NAPLAN Online Training PowerPoint](#) – Information on how to access the NAPLAN demonstration sites and other important information (there are voiceovers on each slide that should play automatically or can be played by pressing the volume symbol). This information has also been sent to your son.

A few points to note:

- Students will need a **charged laptop** each day for the NAPLAN testing. They will **not be able** to charge their device in the testing room.
- Students are required to have **USB-C earphones** to answer all the questions in the test. These must connect to their laptop via a cable (Bluetooth is disabled while the NAPLAN test is running). The headphones will need to connect via a USB-C connector (so be either earphones with a USB-C connector **or** have a 3.5 mm jack and a 3.5 mm to USB-C adaptor).

You are encouraged to look at the demonstration sites and through the NAP locked down browser with your sons to prepare them for the testing, and remind them to attend school with the correct headphones and a charged laptop device each day.
